Zidan's Wish Day as a Train Driver

For 11-year-old Zidan, trains are more than just a way to travel— they're a source of fascination and joy. Every time he took the commuter line from his home in Karawang to RSCM Hospital for treatment, his eyes would light up at the sight of the trains. Diagnosed with chronic kidney disease, Zidan has spent much of his time traveling for treatment— and along the way, he began to dream about what it would be like to drive a train himself, a wish that soon became his biggest dream.

To make that dream come true, Make-A-Wish® Indonesia collaborated with KAI Commuter to let Zidan experience what it's like to be a real train driver for a day. His Wish Day began with a health check and a short learning session about train symbols and routes, before he boarded a train to Juanda Station, the heart of KAI Commuter's operations. There, the team welcomed him warmly and even invited him into the control room, where he could see how all the stations are monitored in real time.

To make the day even more special, Zidan received a Lifetime Commuter Card — allowing him to use the train whenever he travels to the hospital. It was a heartwarming and inspiring day, one that Zidan and his family will cherish forever— a beautiful reminder that dreams, no matter how big or small, can truly come true.

“

Zidan's wish has now come true, and I'm so happy. His dream was to become a train driver, and thank God, it finally came true. Thank you, Make-A-Wish® Indonesia and KCI Commuter, for making this happen - Yuyun Lestari, Zidan's mother
